## **ZSi-Foster Completes Acquisition of Wesanco®**

Canton, Michigan, November [2], 2015/PRNewswire/ — ZSi-Foster is pleased to announce that the company completed the acquisition of Wesanco, Inc., a metal framing channel manufacturer, on October 30, 2105.

For over 40 years, Wesanco® has manufactured the Westrut® channel system consisting of continuous-slot metal framing channel, fittings, pipe clamps, and accessories. "We at Wesanco are delighted to partner with the ZSi-Foster family. And, we as a group, are very excited about the opportunities we now have to bring more value than ever before to our network of customers." Said Andy Shyer, Wesanco's CEO.

Wesanco's manufacturing capability has continued to expand through the years to include: roll forming, welding, curving (radius forming), cutting, and punching of both mild and stainless steels. In addition to the basic metal framing channel, Wesanco provides an extensive series of high grade pipe clamps, standard and specialty fabricated fittings.

"The partnership with Wesanco will bolster ZSi-Foster's west coast presence while also providing our customers with an additional product group of metal framing, fittings and related accessories. In addition, Wesanco's customers will benefit from ZSi's broad line of clamping solutions." said Rick Stepien, ZSi-Foster's CEO. "We are excited about the combination and future prospects of both organizations."

Both ZSi-Foster and Wesanco have grown because they share a common philosophy. Provide high quality products in an "Easy to do business with" environment.

- Low minimum order quantities
- Calls are answered by knowledgeable people, not computers
- Orders are shipped quickly, often on the same day as the order

There is a distinct synergy in the combined company that will allow us to better serve our customers.

- Complimentary products, with emphasis on "Made in U.S.A." solutions
- Customer service in each region of the country
- Ability to offer custom solutions through Wesanco

The combined company also features a number of established product brands that customers know and prefer, including Westrut®, Cush-A-Clamp®, Cush-A-Nator®, Porce-A-Clamp™, Alpha™ and Omega™ Series, and many others. ZSi-Foster's recently introduced pipe support products will expand the opportunities with the Wesanco customer base.
