

SNAP-A-SADDLE™

Snap-A-Saddle™

Special distributor pricing now available!

The Snap-A-Saddle simply attaches insulated pipes to support channel in a one step, tool-free installation. It comes in a 12" overall length that spreads out loading on insulation, preventing internal cavity creation between the tube and insulation.

- Temperature range: -50°F to 275°F (-46°C to 135°)
- Available in both black and white
- UL94-HB1 rated TPV material
- Works in all strut sizes
- Special lengths available – just ask us
- Made in the USA!

Snap-A-Saddle FAQ

- ❖ What colors is the Snap-A-Saddle available in?
 - Black/White
- ❖ Why White?
 - In the case that the customer has white insulation or wants to paint.
- ❖ Why is the Snap-A-Saddle 12 inches long?
 - The 12' length is long enough to distribute the weight without causing cavitation of the insulation.
- ❖ Is the Snap-A-Saddle limited to only a 1-5/8" depth channel?
 - No, the Snap-A-Saddle can be used in ANY depth channel
 - *NOTE* competitor products are limited to ONLY using a 1-5/8" depth channel.
- ❖ What does the Snap-A-Saddle accomplish?
 - The Snap-A-Saddle supports insulated pipe over longer runs without the need to clamp.
- ❖ Besides the fact that the Snap-A-Saddle is not limited to a particular depth channel, what else sets the Snap-A-Saddle apart from the competition?
 - The Snap-A-Saddle is easier and faster to install, less expensive than the alternative, and there is no minimum requirement when ordering.
- ❖ Is the 12-inch length the only size available?
 - Though the 12-inch length is the standard Snap-A-Saddle size, special lengths are available upon request.
- ❖ Does the Snap-A-Saddle require tools to install?
 - No, the Snap-A-Saddle provides an easy way to attach insulated pipes to support channel, with a one step, tool-free installation.
- ❖ What is the temperature range that the Snap-A-Saddle can effectively operate in?
 - Temp Range: -50° to 275° F (-46° to 135° C)
- ❖ Is the material UL listed?
 - The Snap-A-Saddle is made from UL94-HB1 rated TPV material
- ❖ Is the Snap-A-Saddle ASTM rated?
 - The Snap-A-Saddle is ASTM E84 rated which is a standard test method for surface burning characteristics of building materials.
